By Winfield S Hall

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English Brand New Book ***** Print on Demand *****.Excerpt from Nutrition and Dietetics: A Manual for Students of Medicine, for Trained, Nurses, and for Dietitians in Hospitals, and Other Institutions During more than ten years the author has been presenting the subject of nutrition and dietetics to classes of undergraduates in medicine and to the nurses of two large city hospitals. Both lecturer and students have found much valuable literature for reference, notably such works as Thompson s Practical Dietetics and the publications on nutrition and dietetics issued by the Government Experiment Stations. There has been a repeated request for a concise text-book suitable not only for undergraduates and nurses, but also for the general practitioner, and covering the whole field of nutrition and dietetics. But no such book seemed available. Any rational and strictly scientific system of dietetics must necessarily be based upon the most recent researches on animal nutrition. Hence a text-book of dietetics should contain a brief statement of the laws of nutrition. To devote a large part of the volume to recipes seems wholly unnecessary, as the physician does not need them...
