

Water Resource Management in a Vulnerable World: The Hydro-Hazardscapes of Climate Change (Hardback)

By Daanish Mustafa

I.B.Tauris Co Ltd, United Kingdom, 2013. Hardback. Book Condition: New. 236 x 160 mm. Language: English . Brand New Book. Access to water, and the threat of climate change, are two of the most challenging issues for our planet. A global population now exceeding 7 billion people, together with growing numbers of countries adopting a more water intensive lifestyle, are placing increased demands upon the world s water resources, whilst global climate change promises rising sea levels and increased flooding in some of the world s most densely populated regions. How are we to address the twin challenge of global water sufficiency and future climate change? Existing attempts to improve the management of local water resources, and to alleviate the hazard of flooding, have often fallen short of the desired result: attempts by governments and NGOs to provide modern solutions, for example, have created unforeseen problems adversely affecting future water resources and leading to increased vulnerability to crises. Daanish Mustafa s important new book outlines the need to develop an integrative approach. He introduces the concept of hydro-hazardscape to show how the diverse social groups affected by a hazard may view it differently, with the result that their view of...
