MULTILEVEL MODELING OF EDUCATIONAL DATA

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Analysis of Educational Data | This book performs Statistical Analyses of Educational data. Initially simple descriptive measures such as mosaic plots are used to look for patterns in the data. Then univariate tests are used to look for relationships between the pass/fail status of the examination and other explanatory variables. Finally multilevel models are used to model the binary variable and determine the factors affecting this variable. | Format: Paperback | Language/Sprache:...

Reviews

Without doubt, this is actually the best operate by any article writer Indeed, it can be perform, nonetheless an interesting and amazing literature. Its been written in an exceedingly straightforward way in fact it is only soon after i finished reading through this book through which in fact changed me, modify the way in my opinion.
