

## Evaluation of PIM-SM Multicast Protocol in IPv6 Environment: A Greedy RP Selection Approach (Paperback)

Filesize: 6.61 MB

### **Reviews**

*Undoubtedly, this is actually the finest work by any writer. It is really basic but excitement within the fifty percent of your publication. Your way of life period is going to be enhance as soon as you comprehensive looking over this ebook.*

## EVALUATION OF PIM-SM MULTICAST PROTOCOL IN IPV6 ENVIRONMENT: A GREEDY RP SELECTION APPROACH (PAPERBACK)

DOWNLOAD

To get **Evaluation of PIM-SM Multicast Protocol in IPv6 Environment: A Greedy RP Selection Approach (Paperback)** PDF, remember to click the web link listed below and download the ebook or have access to additional information which are have conjunction with EVALUATION OF PIM-SM MULTICAST PROTOCOL IN IPV6 ENVIRONMENT: A GREEDY RP SELECTION APPROACH (PAPERBACK) book.

LAP Lambert Academic Publishing, 2017. Paperback. Condition: New. Language: English . Brand New Book. The multicast technology implements a very high-efficiency point-to-multipoint data transmission over IP networks (IPv4 and IPv6). Multicast protocols reduces network load, eliminates traffic redundancy, and saves network bandwidth. Therefore, widely used in WAN applications as online games, video conferencing and IPTV. This research focuses on IP multicast routing problem called center selection problem of shared tree with the best root classified as NP-complete type tested in IPv6 multicast network. The current research aims to improve select the best location of the RP for PIM-SMv6 protocol through propose a compound solution for multicast RP selection problem. The proposed algorithm called Greedy based RP selection algorithm (GRPSA), designed to select the best RP for PIM-SMv6 multicast routing protocol based on fitness criteria supported by Dijkstra algorithm. Moreover, the development of GRPSA divided into two stages. The First, MATLAB deployed to implement our proposed algorithm (GRPSA) to select the best RP. The second stage uses GNS3 emulator to investigate the performance GRPSA compared to the other randomly nominated RPs in IPv6 multicast network.
