Since the events of 11 September 2001, the United States military counternetwork operations, theory, and doctrine have failed to account for the form, function, and logic of clandestine cellular networks used by both interstate insurgencies, such as those in Iraq and Afghanistan, as well as by global insurgencies like al-Qaeda and its associated movements. The failure to understand the form, function, and logic of clandestine cellular networks has led to the incorrect application of counternetwork operations based on ill-informed counternetwork theories. This monograph defines counternetwork operations as a subset of counterinsurgency and counterterrorism operations. Like counterinsurgency operations, counternetwork operations are focused on a specific element of the insurgency. In this case, counternetwork operations are conducted against the clandestine cellular networks within an insurgency, specifically the underground and auxiliary, not the overt guerrilla elements. This is a counterorganizational operational construct, not a strategy in-of-itself, as has happened with counterterrorism's counter-tactical strategy. Although counternetwork operations are not specifically discussed in U. S. joint or service doctrine, since 9/11, these operations have been the primary offensive effort of both Special Operations...
