

Energy Economical and Environmental Analysis of Industrial Boilers

Filesize: 5.13 MB

Reviews

The book is great and fantastic. It is rally exciting throgh reading time period. I am pleased to let you know that this is basically the greatest ebook i actually have go through inside my very own life and may be he best book for possibly.
(Mr. Hyman Ankunding DDS)

ENERGY ECONOMICAL AND ENVIRONMENTAL ANALYSIS OF INDUSTRIAL BOILERS

To download **Energy Economical and Environmental Analysis of Industrial Boilers** PDF, remember to follow the hyperlink listed below and download the document or have accessibility to other information which might be highly relevant to ENERGY ECONOMICAL AND ENVIRONMENTAL ANALYSIS OF INDUSTRIAL BOILERS book.

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Application of Variable Speed Drives (VSD), Fuel Switching and Economizers | In 1985 Malaysia has changed from agricultural into industrial based economy. The industrial sector represents the highest consuming sector across all other sectors and accounts for about 48% of total energy demand. This study is concerned with an energy saving, economic and environmental analysis of industrial boilers in Malaysia. There are three principles that have been investigated: Installation of variable speed drive; fuels switching between diesel and other types of fuels such as natural gas and biomass; and installation of heat recovery systems in these boilers. After implementation of VSD, the results obtained when reducing the speed of water pumps by 60% show that 4 GWh, 93.6% of energy, RM 863,375 and 2,160 ton of CO₂ could be saved annually which all represent high energy saving, environmental and economic benefits. Also it has been found that when switching between diesel fuel and biomass gas by a percentage of 50% for both instead of using 100% of diesel fuel, 11,946 ton of CO₂ and RM 1,872,532 could be saved annually. Finally installation of economizer has proven its viability with 2,529,779 KWh energy saving, RM 238,573 bill saving and 2,150 ton of CO₂ per annul. | Format: Paperback | Language/Sprache: english | 181 gr | 124 pp.
