Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Stoichiometry Not long after the publication of the first edition, the International Committee on Atomic Weights decided to adopt a somewhat lower value for the atomic weight of silver than that found by Stas. This change had been advocated by Guye, but, owing to the immense amount of care bestowed by Stas on this determination, the Committee were reluctant to make the change until the evidence in favour of the new value seemed to be incontrovertible. I have therefore re-written Chapter V., giving only a short summary of the work of Stas, and devoting more space to the more recent determinations of the atomic weights of silver, nitrogen, chlorine, and lead. A short account of modern views on the nature of atoms is given in Chapter VI., and the bearing on the Periodic Law of recent researches on the Radio-elements and of the theories of Soddy and Fajans is there described. As regards the definition of the term element, the recommendations of Paneth are provisionally adopted. The results of the extensive researches of Professor J....
