Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from Industrial Drawing in Public Schools Firsts, Industrial Drawing has the forms of plane and solid geometry for its basis. When the two dimensions - length and breadth - are to be represented, the exercises should, therefore, begin with the drawing of plane geometrical forms, and by gradual steps advance to the application of these forms to practical design and to the different mechanical arts. Second, When the three dimensions - length, breadth, and thickness - are to be represented, the exercises should begin with the drawing of solid geometrical forms, and by gradual steps advance to the application of these forms in working-drawings for mechanics; in practical perspective and light and shade. Third, Industrial Drawing teaches the principles of practical design as applied both to the form and to the decoration of all manufactured objects; and so it acquaints the learner with conventionalization and with the most beautiful historical forms, whether of objects, or of their applied decoration. Fourth, Industrial Drawing develops the taste, the imagination, and the inventive faculties, and in such a way...
