Drawing on literary and visual evidence, contributors highlight the range and diversity of women's cultural activity during the period, from historiography, publishing and translation to philosophical and political writing. *Women, Writing and the Public Sphere* examines the history of the public spaces women occupied, raising questions of scandal and display, improvement, virtue and morality in the context of the production and consumption of culture by women in eighteenth-century England. The contribution of educated women to the British Enlightenment and the role of translation and exchange between European intellectual movements in shaping ideas of nationhood is also addressed.
