Inner Traditions Bear and Company, United States, 1998. Paperback. Condition: New. Language: English . Brand New Book. Saint, mystic, healer, visionary, fighter, Hildegard von Bingen stands as one of the great figures in the history of women in me. At a time when few women could write and most were denied a formal education, Hildegard von Bingen became a legendary healer, visionary, musician, artist, poet, and saint. Her works include twenty-seven symphonic compositions; Scivias, a compilation of her visions; and her two major medical works, Causae et Curae, a medical compendium, and Physica, published here in English in its entirety for the first time. Physica has a strong affinity with the Eastern medical approaches gaining great respect today. The modern reader interested in natural healing will recognize the enormous truth in the theories of this 12th-century physician, which remind us that our cures for illness depend on our natural world and our place in it.
