STUDY OF EXTREME PRECIPITATION OVER UTTARAKHAND REGION, 2013

Rinku Moni Devi
Study of Extreme
precipitation over
Uttarakhand region, 2013

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | A natural disaster with torrential downpour and subsequent flash flood led to worst disaster on 16-17 June 2013 devastating Kedarnath region in Uttarakhand. This region is geomorphologically vulnerable and tectonically active, making the region fragile and prone to disasters. Anthropogenic activities causing changes in land use, land cover, drainage, unplanned construction, unregulated tourism etc. contributed towards enhancing the impacts of this disaster. Continuous precipitation from few days before 16 June 2013 accumulated,...

Reviews

The best pdf i possibly go through. it was writtem quite properly and useful. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- **Miss Sienna Fay Jr.**

Unquestionably, this is the finest function by any article writer. I have read and that i am confident that i am going to likely to read yet again once again later on. Your daily life period will probably be transform when you comprehensive reading this article book.
