

An Elementary Arithmetic Serving as an Introduction to the Higher Arithmetic

By George Roberts Perkins

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1846 Excerpt: .the means together; we then divide the product by the first term. Since there is a ratio between the third and fourth terms, it follows that they must be of the same denominator value. Hence, of the three terms given, we may always take for the third term of our proportion the one which is of the same kind as the answer required; then, if the answer sought is to be greater than this third term, the second term must exceed the first; but if the answer sought is to be less than this third term, then the second term must be less than the first. 99. From what has been said and done, we deduce this first form for the RULE OF THREE. Form a proportion by placing for the third term that which is of the same kind as the answer sought; the two...
