

The Mereological City

By Köhler, Daniel

Condition: New. Publisher/Verlag: transcript | A Reading of the Works of Ludwig Hilberseimer | In a positive departure from modernism, the work of the art critic and urbanist Ludwig Hilberseimer offers schemata towards the design for the city itself: its mereological composition. The resonance of parts unfolds to an alternative of a purely contrasting equation of form and content. It reminds us, that when the ground (gr.: logos) of the city is defined by its parts (gr.: meros), its architecture, the city in turn always also is part of the architecture as its desire. "The Mereological City" introduces a mereological methodology and contributes to an ongoing discussion about an ecological form of urban design. | Format: Paperback | Language/Sprache: english | 516 gr | 227x150x17 mm | 258 pp.

Reviews

It is a single of my favorite pdf. Yes, it is engaging, still an amazing and interesting literature. It is extremely difficult to leave it before concluding, once you begin to read the book.

-- **Dr. Keeley Windler**

This kind of publication is everything and taught me to seek ahead and a lot more. It really is really interesting through reading through time. I realized this ebook from my dad and dad recommended this publication to understand.
