Reviews

This book is definitely not effortless to start on reading through but extremely fun to learn. Better then never, though i am quite late in start reading this one. It is extremely difficult to leave it before concluding, once you begin to read the book.

Ediciones Lea, 2010. Paperback. Condition: New. Language: Spanish . Brand New Book. Watching ingredients transform through cooking is a wonderful form of alchemy. Molecular gastronomy, as a focus on the relationship between cooking and the chemical and physical processes it involves, is an extension of this idea. This book introduces the public to this highly scientific form of cooking that has revolutionized the culinary world.
