Forgotten Books, 2017. Hardback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Journal of the Society of Motion Picture Engineers, 1931, Vol. 17 That there is a place for color in motion pictures is a foregone conclusion. In this age, when color has so much appeal, the motion picture cannot be expected to be immune. The appeal for color is fundamental. Our every-day life is constantly surrounded by color. It is up to the producers, however, to make a careful study of the uses to which it is best adapted. When motion pictures can capture the blending hues of the spectrum so that they dissolve into the scene, so to speak - and not dominate the picture as has been the case in some instances in the past - then color will enhance the pictorial as well as the dramatic values in motion pictures. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
