Even in the States which are deemed most advanced in their educational system there has been a disposition to cling to the old plan of periodical re-examinations of teachers, despite the needless drudgery involved in these repeated tests. Iowa has taken the lead in the adoption of a better plan. That the teacher has not ceased to grow, but has striven to keep abreast of the times in educational thought and in knowledge of the world s work, can be demonstrated in a better way than by going through the old routine of questions and answers relating to the branches taught. The ability to prepare a thesis, or essay, on a topic in pedagogy or in the line of current events, is an evidence of advancement in professional or general culture.
