Reviews

The book is great and fantastic. Better than ever, though I am quite late in starting to read this one. I realized this publication from my dad and I advised this ebook to find out.

(Dr. Blair Mann)

The Soon Institute, Netherlands Antilles, 2015. Paperback. Condition: New. Language: English . Brand New Book. This publication reissues a beloved photobook classic--acknowledged as such by Martin Parr and Gerry Badger in the third volume of *The Photobook: A History*--that has been out of print since the hardcover edition was published in 2010. As photographer Jason Fulford (born 1973) recently learned firsthand, mushrooms have a way of growing and spreading wherever they touch ground. It all started when a friend of Fulford's gave him a box, found at a flea market, full of photos of mushrooms--unassuming pictures taken by an unknown but almost certainly amateur photographer, apparently as notes for some mycological studies. Fulford's art photographs (aside from his well-known book *Dancing Pictures*, which depicted people getting down to their favorite songs) are usually of staid, quasi-mute objects: a smashed Dorito chip overrun with ants, two bronzed doorknobs spooning, the blank back of a street sign. Yet these mushroom images got stuck in Fulford's mind, like a bad song sometimes does, and they started to grow in his own work. *The Mushroom Collector* combines some of the original flea-market mushroom pictures with his own images and text by the artist about the project.
