Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from **A Clinical Study of Two Hundred and Ninety-Three Cases of Pulmonary Tuberculosis, Treated at the Winyah Sanitarium, Asheville, N. C., 1905 and 1906: With Special Reference to Specific Medication and Its Results** In the present report of 293 cases of pulmonary tuberculosis we have adopted the classification of stages and results according to the form recommended by the National Association for the Study of Tuberculosis. We do this for the purpose of making our statistical data uniform with others, but with a sacrifice of a certain degree of prognostic value as concerns the grouping of stages, or classes of cases in which the National Association thought best to comply with Turban s method, probably because the latter is largely used in Europe and the Committee wished to make American statistics conform with those of other countries. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
