## NODAL REORDERING STRATEGIES

Condition: New. Publisher/Verlag: VDM Verlag Dr. Müller | To Improve Preconditioning for Finite Element Systems | The availability of high performance computing clusters has allowed scientists and engineers to study more challenging problems. However, new algorithms need to be developed to take advantage of the new computer architecture. Since the solution of linear systems still demands most of the computational effort in many problems (such as the approximation of partial differential equation models) iterative methods and, in particular, efficient preconditioners...
