Createspace, United States, 2015. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. Winners keep winning. Don t you!? The real answer to crack the code to win the Lottery is to lower the odds more in your favor, using the least amount of cash possible so that the House starves and you always win by default. The mathematical secrets and techniques provided in this book are what work for me; and keep in mind, they may or may not work for you, since there are no guarantees and you will make mistakes. However, some naysayers may find the information mind-boggling, others may find the data ridiculously obvious so that they can consider it silly. I say, tweak what works best for you. The idea is to win it once to secure your future. You only need to hit it once! Good Luck!
