HANDBOOK OF FOOD PROCESSING TECHNOLOGY, VOLUME 2

Handbook of Food Processing Technology

Volume II: Biochemical and Microbiological Aspects

S.C. Bhatia

Atlantic Publishers & Distributors (P) Ltd, 2008. Hardcover. Book Condition: New. Food science including the processing and preservation aspects is an interdisciplinary subject involving topics from chemistry, microbiology, engineering operations and technological processes. These topics need an interactive approach to enable one to gain a proper perspective and insight into the subject. The fast emerging food biotechnology, involving the use of genetically modified foods and food products, has become controversial even though the use of micro-organisms and microbial products in..
