

Clinical Biochemistry: An Illustrated Colour Text (Paperback)

By Allan Gaw

Elsevier Health Sciences, United Kingdom, 2013. Paperback. Condition: New. 5th Revised edition. Language: English . Brand New Book. 2014 BMA Medical Book Awards Highly Commended in Basic and Clinical Sciences category! This fully revised edition of Clinical Biochemistry offers essential reading for today's medical student and all those who require a concise, practical introduction to this subject. Topics are clearly presented in a series of double-page learning units, each covering a particular aspect of clinical biochemistry. Four sections provide a core grounding in the subject: Introducing clinical biochemistry gives a basic insight into the workings of a modern hospital laboratory and the interpretation of test results; Core biochemistry covers the bulk of routine analyses undertaken and their relevance in a clinical setting; Endocrinology covers the thyroid, adrenal, pituitary and gonadal function testing; Specialised investigation provides an overview of less requested yet important analyses. Covers clinical biochemistry from the point of view of the clinician using the diagnostic service. Presents topics in easily accessible two-page spreads. Includes mini case histories, key point boxes, flowcharts, and summary points. Well illustrated with four-color drawings and clinical photographs. New appendix added of annotated web resources for students to take further many of the topics covered...

Reviews

It is one of my personal favorite pdf. This really is for all those who state there was not a really worth looking at. I realized this book from my dad and i encouraged this pdf to understand.

-- **Katlynn Haag**

Thorough information for pdf fans. It really is rally interesting through looking at time. I am easily will get a satisfaction of studying a published pdf.
