Reviews

It is an incredible book which i actually have ever go through. it had been writtem extremely completely and helpful. You can expect to like the way the blogger publish this book.
(Prof. Jerad Lesch)

CATALYSIS (HARDBACK)

Royal Society Of Chemistry, United Kingdom, 2009. Hardback. Book Condition: New. Edition. ed.. 238 x 162 mm. Language: English . Brand New Book ***** Print on Demand *****.Specialist Periodical Reports provide systematic and critical review coverage in major areas of chemical research. Compiled by teams of leading authorities in the relevant subject, the series creates a unique service for the active research chemist with regular critical in-depth accounts of progress in particular areas of chemistry. Subject coverage of all volumes is very similar and publication is on an annual or biennial basis. There is an increasing challenge for chemical industry and research institutions to find cost-effective and environmentally sound methods of converting natural resources into fuels, chemicals and energy. Catalysts are essential to these processes and the Catalysis Specialist Periodical Report series serves to highlight major developments in this area. This series provides systematic and detailed reviews of topics of interest to scientists and engineers in the catalysis field. The coverage includes all major areas of heterogeneous and homogeneous catalysis as well as specific applications of catalysis such as NO_x control, kinetics and experimental techniques such as microcalorimetry. Each chapter is compiled by recognised experts within their specialist fields, and provides a summary of the current literature. This series will be of interest to all those in academia and industry who need an up-to-date critical analysis and summary of catalysis research and applications. Volume 21 covers literature published during 2006.
