Createspace Independent Publishing Platform, United States, 2015. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. Quite Opposite of what many think that Dysautonomia or POTS Syndrome is a rare disease, over 70 million people live with some type of Dysautonomia. There is no specific age for POTS Syndrome and it can affect from young children to adults. Despite all the works and efforts performed to know more about Dysautonomia, It actually takes years for many patients to get diagnosed and it's more due to the lack of knowledge and understanding and awareness among people and medical industry. The first reason to write a book about Dysautonomia or POTS Syndrome was that there was not many good books about it that people can understand. Throughout my research, I have found some simple things that can really help the symptoms of Dysautonomia or POTS Syndrome that nobody talks about. PLEASE answer these questions first to have a better idea of what symptoms we're talking about: Do you feel dizzy or faint or get headache when you stand up? Do you Experience Brain Fogging ( difficulty in thinking) ? Do you feel tiredness, sense of...
