Reviews

This publication is wonderful. Better than never, though I am quite late in starting to read this one. I am very happy to tell you that here is the best book we have read through inside my personal daily life and could be the finest PDF for actually.

(Ms. Sydnee Lesch)

HOW TO SING AND SEE: SINGING PEDAGOGY IN THE DIGITAL ERA

Cantare Systems. Paperback. Book Condition: New. Paperback. 292 pages. Dimensions: 11.6in. x 8.8in. x 0.8in. Specially designed for people using Sing and See, *How to Sing and See: Singing Pedagogy in the Digital Era* is a comprehensive guide to using visual feedback software in ways that will foster both vocal and musical development. It includes explanation of the Sing and See on-screen visual displays, a discussion of vocal questions that need to be considered in the individual application of the software, and over 200 vocal training exercises. The exercises cover intervals, triads and a comprehensive range of scales and modes used in a range of vocal styles. A page is devoted to each exercise, with the same layout, giving musical notation of the exercise, a brief explanation of its purpose, a reproduction of the target display and instructions on how to achieve it. The manual begins with the most basic singing task and builds from there, so you can choose exercises to build a graded vocal and musical developmental program, or to answer specific needs of individual students, or to construct a personalized practice regimen. Although written with singing teachers in mind, the book is also proving to be very useful for singers (those who already have some basic singing skills) as a self-directed practice regime. The large variety of vocal techniques covered by the book give the advanced student of singing a valuable guide to systematically improving his or her vocal skill by making best use of the Sing and See software. This version of the book is a paperback bound replica of the original spiral-bound Teachers Manual available from Lulu. com. It is slightly smaller in size and is easier to hold - although without the lie-flat ability of the original spiral binding. And its cheaper! This item ships...
