Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.We have truly entered a world whose very existence relies on the Computer and its offspring, the Microcomputer. There is a computer chip present in almost every device that can be plugged in the wall or is powered by batteries. The sheer abundance of inexpensive Smart Modules available in today's electronics marketplace has made it feasible to design an inexpensive -Smart- Controller that can automatically direct the actions of vintage and antique model trains. The same concepts set forth in this book can be applied to give intelligence to many electronic devices. This book describes the design path leading to the physical realization of an Automated Model Train Controller.
