CLIMBING INTO MY DREAM: AN AEROSPACE ENGINEER S JOURNEY (PAPERBACK)

iUniverse, United States, 2011. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Bill Dye is one of the lucky ones. Like so many of his childhood pals, he dreamed of flying jets or being a console guy launching satellites. Unlike so many young boys who wished for a life of adventure amid the romance of space travel, however, Bill s dream became his reality. His boyhood passion for airplanes and rockets, fueled by his parents encouragement, launched him into an exciting, fulfilling career in aerospace. In Dye s often humorous, entertaining memoir, you ll get the inside scoop on the US space program from an aerospace engineer with more than three decades of experience. You ll discover how a kid who used to win science fairs and fire off homemade rockets ends up directing the design and development of several spacecraft-including IKONOS, an Earth-observation satellite that changed the world. He is proof that even the loftiest dreams are attainable with the right opportunities, the right education, and the right attitude. As a fellow aerospace engineer, once I started reading Climbing into My Dream, I couldn t put it down. Many of us from different backgrounds went on this exhausting but exhilarating journey. Bill Dye was the go-to guy who was fun to be with. His story brought back memories of learning the trade. -Tom Dougherty, program director (retired), Lockheed Martin.
