Createspace Independent Publishing Platform, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.The aim of the work as stated in the preface is to present the basic principles of endocrinology together with their application to practical problems that confront the physician. Any contribution in this direction therefore must be worth while. When Bandler says in his book these opinions are offered on the basis of therapy fortified by clinical observations, or again if you have a theory and it works out in practice, the chances are that it is correctly founded, the hope is awakened that a series of therapeutic tests with organic extracts carefully arranged and reviewed, is to be presented by the author, but in this one is greatly disappointed. Dr. Bandler s book, while it aims...
