The Report Scenarios on Chronic Non-Specific Lung Diseases 1990–2005 (CNSLD) is the second specialized report of the Chronic Diseases Scenario Project. The report begins with a description of the present scale of the problem and developments in the recent past. A summary of experts ideas about the future precedes a description of various kinds of future health scenarios. The report concludes by identifying priority areas for government policy. CNSLD is a growing problem. Key questions accordingly consist of the need for an expansion in health care and health care reforms and the prospects for preventing the disease itself, and its exacerbations and complications.
