Excerpt from Wheat and the Flour Mill: A Handbook for Practical Flour Millers Our small library Of Milling Technology can be divided into three groups of books; each group indicates the metier of the author, mechanics, chemistry, or practice. The last-named group is the least prolific, and to it this book belongs. Edward Bradfield was a miller, and never confused his claims with those of the chemist or the engineer. He saw that his craftsmanship provided in itself a whole subject, and he used up the zeal and energy of his youth in an effort to focus for to-day all the light which he could throw, or which had been thrown, on that subject. He was Old enough to be something of a seer with a thought for the long, slow road we had traversed and an outlook for the future; he was young enough to be something of a revolutionary with a laugh and a shout for each new plunge that might precipitate some healthy change, or break a shackle of the past. When such a man writes a book, it is...
