Zeman: Vampires, werewolves, unicorns, pterodactyls, and other creatures from myth or brought back from extinction. A deadly monorail with an insanely cheery Artificial Intelligence tour guide. A fortune teller s frighteningly accurate prediction of death. Are you brave enough to discover the dark secret of Snow Island? M.Y. Zeman s paranormal thriller, Snow Island: Chronicles of a Wererabbit, is an action-packed adventure tale that kept me on the edge of my seat. A modern classic that should not be missed. This decidedly different and fabulous shifter action fantasy novel is most highly recommended. -- Reader s Favorite Snow Island begins five months after Snow Bunny with Snow, now 15, receiving an ominous prediction from a fortune teller. She travels to a mysterious island with Josh, her dads, her friends David and Charlene to find out what happened to the creatures and werewolves that have been disappearing. Chronicles of Wererabbit-a young adult paranormal/fantasy series about a girl who can shift into a rabbit and her journey to become a hero. Not just a fantasy world where good battles to overcome evil, there is a deeper message too. I felt a strong Ecological awareness and learned many facts about animals, nature and the world around us. The need to improve conservation and how we can make personal changes to help our earth are cleverly woven into the story. The frightening reality facing many of our endangered animals is highlighted yet offering hope that having heart being brave, ethically minded and responsible can all help in making a difference. -- Yolanda Boag.
