Swallow Tail Press, 2015. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. A hilarious satire on just about everything. I couldn't stop laughing. - Amazon review. It's way past 1984 and Google Earth is ruled by the Orwellian power of Big Data and the corporate might of Google, Amazon, Facebook and Twitter. Privacy is unknown, surveillance is ubiquitous, and the Terms of Service have been replaced by the Terms of Servitude. Smith, a happy native of this paradise, wanders off the grid and discovers sex, the knowledge of good and evil, and the pursuit of happiness. Can he and his lover Julia save the human race from the Next Big Thing? Two years after its first publication, Big Data Is Watching You! is a cult classic in danger of losing its satirical status as Silicon Valley advances its agenda of world domination. We offer it with the recommendation that it be purchased immediately, read quickly, and committed to memory before it is banned from the internet. Vonnegut would love it. - Amazon review.
