

South - East Asia Regional Conference on Epidemiology: The Proceedings (Paperback)

By Who Regional Office for South-East Asia

WHO Regional Office for South East Asia, Singapore, 2011. Paperback. Condition: New. Language: English . This book usually ship within 10-15 business days and we will endeavor to dispatch orders quicker than this where possible. Brand New Book. In a changing and inter-connected world, evidence-based information is essential for effectively addressing health problems. In this context, epidemiology plays an important role in providing data that can help setting priorities in an environment of limited resources, in planning of strategies and policies, and in advocating for timely and coordinated action. This important and comprehensive book contains the proceedings of the SEA Regional conference on Epidemiology, held in New Delhi, 8-10 March 2010. The conference was attended by 350 delegates from within and outside the South-East Asia Region. The volume focuses on topics covered in the conference such as: enduring relevance of epidemiology; role of epidemiology in the context of health security; MDGs and epidemiology; climate change: assessing vulnerability and defining adaptation strategies; economic crisis and health of the poor: how epidemiology can help; use of epidemiology in monitoring and evaluating health interventions; human resource and capacity building, and research and policy interface. In addition, the volume provides some real-time examples of...
