Reviews

This pdf is definitely not easy to get started on studying but quite entertaining to read through. I am quite late in start reading this one, but better then never. Once you begin to read the book, it is extremely difficult to leave it before concluding.

Createspace Independent Publishing Platform, United States, 2014. Paperback. Book Condition: New. 203 x 127 mm. Language: English . Brand New Book ***** Print on Demand *****.Dear friend, this book will help you to understand how psychics and mediums work. It will also help you to understand more about the human spirit and the energies which surround each of us, often referred to as the aura. What empowers physical form, giving it consciousness, mind and personality, thoughts and feelings, is pure eternal-indestructible energy known as spirit. When the physical form reaches a condition where it becomes untenable for the spirit (known as the soul in its individualized state) to continue inhabiting it, it departs, like the Butterfly leaving the chrysalises. These facts are true for every single person who has or ever will live upon this planet (or elsewhere). Whether in spirit or presently experiencing through a physical form we are in essence eternal energy beings. We are capable of blending our energies, spirit to spirit, to facilitate mind-to-mind contact to communicate with each other. As you may expect - this is more natural and easy to do when both souls are in the spirit realms and on the same level of consciousness and frequency of vibration. However, even when one is in spirit and one on earth it is still possible to blend energies and transmit images, thoughts and feelings to each other. This is exactly what transpires with mediums on earth. A spirit person draws close to them and establishes communication. This is more possible with a medium because their vibrations are suitably sympathetic to such a link, and more so than the average person. As a result they are able to consciously recognize communications and relay these to other people. The communications arrive via the aura of a...
