Commercial Algebra Volume 1

By George Wentworth

Rarebooksclub.com, United States, 2013. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1917 edition. Excerpt: .number. 115. Two Unknowns, One Letter. A problem may involve the finding of the values of two unknown quantities and still require the use of only a single letter if there are two statements either expressed or implied. As will be seen, one statement will give a relation which makes it possible to represent the two unknowns by the aid of only a single letter, but with different coefficients; the other statement will be one which can be translated into an equation. 1. On June 21 daylight in a certain place lasts 8 hr. longer than darkness. How many hours are daylight? Statement I. Daylight = darkness + 8 hr. Statement II (implied). Daylight + darkness = 24 hr. Let x = the number of hours of darkness. Then, from I, x + 8 = the number of hours of daylight. But because, from...
