Mulberry- A underutilized fruit crop for value addition

By Shailendra K. Dwivedi

LAP LAMBERT Academic Publishing. Paperback. Condition: New. 80 pages. Dimensions: 8.7in. x 5.9in. x 0.2in. The mulberry belongs to family Moraceae. Mulberry is believed to originate on the lower slopes of the Himalayas and is a native of either India or China. The mulberry flower occurs during late winter or beginning of spring. The fruits are sorosis. The fruits have attractive purple to black color and pleasing flavors. It has also good medicinal properties and can be used to debility symptoms when used with other restoratives. The person who has symptoms such as anemia, dizziness can take a tonic to build up health with mulberry. There are great possibilities to obtaining beverages with highly refreshing, invigorating, thirst quencher and appetizer properties. Therefore, there was urgent need to develop mulberry based processed products and the investigations were undertaken to overcome losses caused by its perishable nature and utilize its nutritive and medicinal value for longer duration. The book will highlight the problems associated with the mulberry crop and their value addition. This book will be beneficial for researchers, Post graduate and graduate students working in the field of agriculture, horticulture, postharvest technology, medical sciences etc. This item ships from multiple locations. Your book may arrive...
