UNDERSTANDING SCIENCE: LIGHT, SOUND SPACE (PAPERBACK)

To save **Understanding Science: Light, Sound Space (Paperback)** eBook, you should click the hyperlink listed below and download the file or have accessibility to additional information that are related to UNDERSTANDING SCIENCE: LIGHT, SOUND SPACE (PAPERBACK) book.

SCHOFIELD SIMS LTD, United Kingdom, 2015. Paperback. Condition: New. 2nd Revised edition. Language: English . Brand New Book. Understanding Science is a series of topic-based study books for children in Key Stage 2, providing comprehensive coverage of key subject areas. Each topic contains a concise summary of the information required by the National Curriculum, together with structured practice. Each book is a stand-alone resource, so children can either work through them in order or focus on individual aspects of the subject. Together, the six books support the whole of the Key Stage 2 science curriculum, including scientific investigation, providing a solid foundation for success in science. Light, Sound Space meets the National Curriculum requirements for Key Stage 2 science, and covers the following areas: light and sound travel, reflection, shadows, vibration, noise, pitch, volume, the Earth, Sun, Moon and solar system. This book explains the importance of light and sound and the ways in which they can be changed. Key features of Understanding Science include: an Explanation to introduce each topic; activities to consolidate and revise knowledge and skills; thought-provoking facts to foster a love of learning beyond the National Curriculum; a Scientific investigation table to identify and encourage scientific questioning opportunities across the series; a combined Index and glossary to define key terms introduced in the text.
