If it is satisfactory, it will increase the field for reinforced concrete chimneys as it is cheaper than firebrick. I do not recollect any other points that were raised. MR. FIANDER ETCHELLS: --There is just one little point not yet clear. You stated that the corrosion of steel chimneys was from the inside, and therefore in this country they were not desirable, but in America, where it is a drier climate, they could be used. I am rather doubtful as to whether the climate inside a chimney in this country is different from the climate inside a chimney in America. Mr. CANE: --I certainly think the rainfall has a distinct influence on the life of the steel chimney. Mr. ETCHELLS: --Even...
