Forgotten Books, 2018. Hardback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. Excerpt from Annals of Nature, 1820: Or Annual Synopsis of New Genera and Species of Animals, Plants, Etc; Discovered in North America The following lines shall contain many of my unpublished discoveries, made between 1816 and 1819. In the states of New-York, Pennsylvania, Vermont, New Jersey, Maryland, Virginia, Kentucky, Ohio, Indiana and Illinois, but several must still be delayed, as well as the figures. As my Ichthyology, or natural history of the Fishes of the Ohio, (containing 100 new species) is now under the press, the fishes of that river shall not be mentioned here. If I should occasionally repeat the descriptions of some few new animals and plants, already communicated to some societies, or journalists, the blame is their own. Why do they delay the publication of them and how am I to know if they ever received them, or mean to publish them? Do they wish me to wait until somebody may follow the path which I have opened, and anticipating my publications, deprive me of the fruit of my labor, (as it has been already attempted) and...
