IS MAN TOO PROLIFIC?: THE SO-CALLED MALTHUSIAN IDEA (PAPERBACK)

Createspace Independent Publishing Platform, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.An excerpt from the introductory chapter: THE MALTHUSIAN IDEA. There lies before me, as I write, a little pamphlet which has been sent out by the tens of thousands during the past few years, and which has-either directly or indirectly-exerted an influence so wide, that it is well-nigh impossible for the American physician in general practice to escape the evidence of it for a single day. For several reasons I refrain from indicating its title; one will suffice-it is literature of the kind which the law of our land forbids to write, publish, or send through the mails. The opening sentence of this pamphlet is this: The law of population first laid down in this country by the Rev. T. R. Malthus in his great work entitled The Principle of Population, has long been known to every student, and accepted by every thinker. On the next page we find Malthus's law quoted, The constant tendency in all animated life to increase beyond the nourishment prepared for it, and again, a few lines farther on, he is quoted as saying, Population when unchecked, goes on doubling itself every twenty-five years. On the next page we read, The power of increase of the human species, according to John Stuart Mill, is indefinite, and actual multiplication would be extraordinarily rapid if the power were exercised to the utmost. It never is exercised to the utmost, and yet, in the most favorable circumstances known to exist, which are those of a fertile region colonized from an industrious and civilized community, population has continued for several generations, independently of fresh immigration, to double itself in not much more than twenty years. It is a very low...
