CERVICOVAGINAL SMEARS CLASSIFICATION BY USING THE BETHESDA SYSTEM 2001

Chkhaim, Toqa / Ali, Hussam
Cervicovaginal smears
classification by using The
Bethesda System 2001

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Cervical cancer is a preventable malignancy, yet every year over 530,000 women are diagnosed with and over 275,000 women die from the disease worldwide. The distribution of cases and deaths is commoner in low and middle income countries, which have 86% of the global cases and 88% of the total deaths. The Bethesda system aims to simplify cervical smear reporting and make it more reproducible and facilitates the communication between pathologist &...
