

Pop-Up and 3-D Cards: Step-by-Step Projects to Make at Home

By Angel, Emma

Collins & Brown, 2005. Book Condition: New. Brand New, Unread Copy in Perfect Condition. A+ Customer Service! Summary: These 20 beautiful homemade, dimensional cards literally pop-up and the distinctive designs can easily be adapted to fit any occasion and need at a fraction of the cost of store-bought. Imagine--there's even an amazing card to thank someone for help with dog walking: on the outside, it's covered with muddy paw prints; open it, and the dog himself rises from the page. And that's just one of the delightful patterns, which come complete with templates, instructions, and color photos of the finished results. Who could resist an invitation delivered by a fairy with a magic wand and a rainbow-hued 3-D tutu? What child wouldn't giggle when a Halloween card opens and a bat flies out? They're all fun and unique.

Reviews

This is basically the very best publication i actually have go through until now. It really is loaded with knowledge and wisdom I realized this publication from my i and dad encouraged this publication to discover.

-- **Bryana Klocko III**

The most effective publication i ever study. I am quite late in start reading this one, but better then never. You wont sense monotony at whenever you want of your time (that's what catalogs are for concerning in the event you ask me).
