CAMBRIDGE UNIVERSITY PRESS, United Kingdom, 2010. Paperback. Condition: New. Language: English . Brand New Book. Social Constructionism: Sources and Stirrings in Theory and Practice offers an introduction to the different theorists and schools of thought that have contributed to the development of contemporary social constructionist ideas, charting a course through the ideas that underpin the discipline. From the New Science of Vico in the 18th century, through to Marxist writers, ethnomethodologists and Wittgenstein, ideas as to how socio-cultural processes provide the resources that make us human are traced to the present day. Despite constructionists often being criticised as relativists , activists and anti-establishment and for making no concrete contributions, their ideas are now being adopted by practically-oriented disciplines such as management consultancy, advertising, therapy, education and nursing. Andy Lock and Tom Strong aim to provoke a wider grasp of an alternative history and tradition that has developed alongside the one emphasised in traditional histories of the social sciences.
