Reviews

Definitely one of the better book We have possibly read. We have read through and i also am certain that i am going to gonna study once again yet again in the foreseeable future. Once you begin to read the book, it is extremely difficult to leave it before concluding.

Bertelsmann W. Mrz 2010, 2010. Taschenbuch. Condition: Neu. Neuware - Die europäische Diskussion um Qualifikationsrahmen sowie informelle und non-formale Lernprozesse setzen das deutsche Modell der Berufsbildung unter Zugzwang. Vor diesem Hintergrund rückt besonders die Diskussion um Kompetenzen und der wissenschaftliche Diskurs um Verfahren der Kompetenzermittlung in den Mittelpunkt des Interesses. Der Tagungsband stellt die Beiträge des siebten AG BFN-Forums zum Kompetenz-Diskurs vor, das die internationale Anschlussfähigkeit des bundesdeutschen Modells beruflicher Qualifizierung und damit indirekt die globale Konkurrenzfähigkeit thematisierte. Aus wissenschaftlicher, berufsbildungspolitischer und berufsbildungspraktischer Sicht stellen die Beiträge theoretische, empirische und berufsbildungspolitisch orientierte Analysen zur Kompetenzermittlung vor. The European debate on qualification frameworks and formal and non-formal learning processes forces Germany to reconsider its vocational education model. Against this background the discussion on competences and the scientific discourse on methods of competence evaluation are moving into the centre of interest. This volume presents the contributions of the seven AG BFN forums to the competence discourse that consider the international compatibility of Germany's vocational qualifications and thus indirectly its global competitiveness. Adopting the perspectives of science, vocational training policies and practice, the contributions offer theoretical, empirical and vocational training perspectives for the evaluation of competences. 275 pp. Deutsch.
