Excerpt from The South African Mining Journal, Vol. 22: December 7, 1912 A Copper recently left the Band for that territory, Discovery. Headed by some experienced prospectors, and financed by a local syndicate. The information available is very meagre, but the find is said to be a promising one. Returns received by the Chamber of Mines up to date indicate that the November gold output will probably exhibit a small decline in comparison with the declaration for October. Profits, too, it may be anticipated, will be proportionately smaller, but the decreases so far announced appear to be due solely to the fact that there was one less working day last month than in October. The East Rand Proprietary's November output was 91016 ozs. And that of October whilst the profits are a little higher. Brakpan Mines records a slightly less output and a correspondingly smaller profit. It looks as if the increases would well nigh counter balance the declines. In any case the fluctuation is not likely to be a large one. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
