

## Fantasy Football (American)

By Frederic P. Miller

Alphascript Publishing Mrz 2010, 2010. Taschenbuch. Condition: Neu. Neuware - Fantasy Football is a fantasy sports game in which participants (called 'owners') are arranged into a competitive league, earning fantasy points by using the statistics of real football players. The owners of each league draft real-life American football players, typically from either the NFL or NCAA, filling a roster containing the various offense or defensive positions on a team, such as Quarterback, Running Back, Wide Receiver, and Tight End. Depending on how well the players on an Owner's team do in a given week, the team earns Fantasy Points to compete against the other owners in the league. If a running back rushes for a touchdown, for instance, the running back earned a pre-determined amount of points for that running back's owner. At the end of the season, win-loss records determine league rankings or qualifications into a playoff bracket. Most leagues set aside the last weekends of the regular season for their own playoffs, which determines the league's champion for that season. Fantasy football has become an incredibly popular phenomenon. 108 pp. Englisch.
