Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1920 Excerpt: .frosts of the last days of the month. Plowing for and seeding winter wheat made excellent progress with the soil generally in fine condition. The early sown came up quickly to a good stand. Pastures were good throughout the month. Haying and thrashing proceeded with favorable weather. A large crop of prairie hay was secured. October.--An unusually favorable month for crops and fall work. The temperature was above normal until the last week. No severe storms occurred, and rain interfered little with work. Corn dried out rapidly and husking began about the middle of the month but generally made slow progress until the lower temperatures the last week. Winter wheat made excellent growth except in few localities where more rain would have been beneficial--The pastures were good, feed abundant and stock continued in good condition. The harvest of sugar beets and potatoes progressed rapidly. November--Snow, moist weather, and wet soil delayed corn husking somewhat but work was well advanced at the end of the month. Winter wheat generally made an excellent growth and pastures were good. December.--Warm, pleasant weather prevailed for the first 17 days but was followed by snow and decidedly colder weather. Kail work was well advanced when the cold wither began. The mild weather caused wheat and rye to grow unusually late and grain continued in good condition. Pastures were good and feed for stock abundant. Monthly and Annual Mean Temperatures for the Year 1920, with Departures from the Normal. Stations Xorthrstem Division...
