

The Rise of Iwar: Identity, Information, and the Individualization of Modern Warfare (Paperback)

Filesize: 3.56 MB

Reviews

This is an awesome publication i have at any time read. Of course, it is play, still an interesting and amazing literature. You will like just how the author write this book.

(Prof. Herta Mann)

THE RISE OF IWAR: IDENTITY, INFORMATION, AND THE INDIVIDUALIZATION OF MODERN WARFARE (PAPERBACK)

Lulu.com, United States, 2015. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.During a recent address to the National Defense University on U.S. counterterrorism strategy, President Barack Obama cautioned that we must define the nature and scope of this struggle, or else it will define us. His comments hinted at the dramatic transformations of the U.S. military and national security apparatus since September 11, 2001 (9/11). Notable among these have been a new operational emphasis on the threats posed by nonstate actors and individual combatants. This trend represents a major shift from the Cold War era paradigm focused primarily on conventional threats from state-based adversaries. This strategic reprioritization has evolved into new military doctrines focused on the task of defeating networks rather than formations and technical innovations designed for identifying, screening, and targeting individual combatants on the battlefield.
