Reviews

This ebook will be worth acquiring. It is actually written in basic phrases instead of hard to understand. It is extremely difficult to leave it before concluding, once you begin to read the book.

This is best applied in the form of radiant heat; but where special apparatus is not available, an ordinary oven or open fire may be used. Lovett uses a large sheet of asbestos in which a hole is cut and the limb put through into a moderately heated oven, or close to an open fire, the asbestos protecting the patient s body from ther heat. A warm bath just before the time for massage relaxes the muscles and joints and makes subsequent manipulation more effective. Hot water is a less desirable form of heat, as it makes the skin tender and cannot be borne at as high a temperature as can the dry heat. At the present time the value of electricity in the after treatment of infantile paralysis is being questioned by many authorities. Lovett has used electricity on a patient s right or left side in cases of symmetrical paralysis, and states that in no instance has the side so treated shown a faster rate of progress. Frauenthal uses the interrupted galvanic current and considers it of more value than all other methods of treatment. During the past three months we have been using the combined faradic and galvanic sinusoidal, and feel convinced that these cases have been benefited. If we subject a muscle to the action of a slow sinusoidal, we obtain a contraction which starts slowlv and by a gradual effort...
