

The Art of Sculpture Welding: From Concept to Creation (Paperback)

By Kristi Richardson Mccoy

Industrial Press Inc., U.S., United States, 2015. Paperback. Condition: New. Language: English . Brand New Book. This extraordinary seven-part book covers the processes of creating 14 projects - from pencils to vases to bicycles - for all personalities, skill levels and interests. It is specifically designed for students, beginning welders, hobbyists, and do-it-yourselfers. Many of the plans have been built multiple times by students and others. The plans are easy to read and the projects are meant to motivate the reader to want to learn the welding and fabrication processes. All plans include a list of materials, dimensions, special notes as needed, plus any commentaries about special equipment that might be necessary to complete the project. It is an excellent complement to William Galver's Art of Welding. It includes designed plans instructors can use to teach students all facets of the welding environment in a fun and challenging way. All 14 projects were developed because students wanted to build them. A parts list included with each project allows students and instructors to easily complete a cost estimate. The book starts with projects on beginning fabrication, teaching students how to measure, identify types of steel, use a scribe, a square, plasma...
